This material contains information affecting the National Defense of the United States within the meaning of the Espionage Laws, Title 18, U.S.C. Secs. 793 and 794, the transmission or revelation of which in any manner to an unauthorized person is prohibited by law

This is UNEVALUATED Information SOURCE EVALUATIONS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE. 1. An underground factory, believed to be of a military character, is being built near Strazske (N 48-52, E 21-50). Construction work was started at the beginning of 1953. Information on factory plans and future production lines is kept in the greatest secrecy, even builders and engineers being uninformed as to the real nature of the factory. The top management consists exclusively of Soviet engineers. Equipment and machines are brought from the Soviet Union. 2. The armaments factory in Dubnica nad Vahom (N 48-58, E 18-11) ¹ employs between 6,000 and 7,000 workers and, according to rumor, the factory is to expand its production. Part of the installations are underground. There are plans to build a workers* town in the vicinity of the factory. 3. The J.V. Stalin Works in Martin (N 49-04, E 18-56) employs approximately 15,000 workers. 4. A metallurgical plant has recently been built at Snina (N 48-59, E 22-09). It employs 600 to 700 workers. 2. Comment: Presumably one of the Skoda plants in Dubnica. 2. Comment: Presumably the Vihorlat National Enterprise plant.						E-C-R-E-I NOFORN					25X1
